Section II—Cover Sheet

This cover sheet is to be completed for each Time Extension (TE) or Alternative Diversion Requirement (ADR) requested.

1. Eligibility

Has your jurisdiction filed its Source Reduction and Recycling Element, Household Hazardous Waste Element, and Nondisposal Facility Element with the Board (must have been filed by July 1, 1998 if you are requesting an ADR)?

☐ No. If no, stop; not eligible for a TE or ADR.

☒ Yes. If yes, then eligible for a TE or ADR.

2. Specific Request and Length of Request

Please specify the request desired.

☒ Time Extension Request

Specific years requested 2001, 2002, and 2003

Is this a second request? ☒ No ☐ Yes Specific years requested.

(Note: Requests for an additional extension will need to address why the jurisdiction's efforts to meet the 50% goal by the end of the first extension were not successful.)

☐ Alternative Diversion Requirement Request (*Not allowed for Regional Agencies*).

Specific ADR requested %, for the years .

Is this a second ADR request? ☐ No ☐ Yes Specific ADR requested %, for the years .

(Note: Requests for an additional ADR will need to address why the jurisdiction's efforts to meet 50% by the end of the first ADR period were not successful.)

Note: Extensions may be requested anytime by a jurisdiction, but will only be effective in the years from January 1, 2000 to January 1, 2006. An original request for a TE/ADR may be granted for any period up to three years and subsequent requests for TE/ADR may extend the original request or be based on new circumstances but the total number of years for all requests cannot total more than five years or extend beyond January 1, 2006.

Section IIIA—TIME EXTENSION

Within this section, discuss your jurisdiction's progress in implementing diversion programs that were planned to achieve 50%. Provide any additional information that demonstrates "good faith effort." The CIWMB shall determine your jurisdiction's progress in demonstrating "good faith effort" towards complying with AB 939. Note: The answers to each question should be comprehensive and provide specific details regarding the jurisdiction's situation.

Attach additional sheets if necessary—please reference each response to the appropriate cell number (e.g., IIIA-1).

- 1. Why does your jurisdiction need more time to meet the 50% goal? Describe why SRRE selected programs did not achieve 50% diversion. Identify barriers to meeting the 50% goal and briefly indicate how they will be overcome.**

In 1999 and 2000, the City of San Marino experienced a significant drop in the diversion rate compared to previous years. The City believes that this drop is in part due to disposal reporting errors. While the City has expended considerable resources to identify and document these errors, the City was unable to obtain documentation that would satisfy the CIWMB's requirements for disposal reporting error corrections. As a result of this situation, the diversion rate likely does not reflect the recycling and diversion programs implemented in the City of San Marino. For comparison purposes, the following lists the diversion rates approved for the year 1995 through 1998:

1995 - 21% (Generation Based)

1996 - 48%

1997 - 45%

1998 - 41%

The City is developing a plan to provide the City with more control of the waste stream to facilitate recycling programs and to eliminate disposal reporting errors. The City anticipates completing this plan by the end of 2001 with implementation commencing in 2002. 2003 will be the first full year for operations under the new plan. The City's plans include adopting an ordinance making participation in the residential curbside (backyard) recycling and green waste collection programs mandatory. The City also plans to expand the residential curbside (backyard) recycling program to include additional material types such as magazines, catalogs, telephone books, office paper, junk mail, chipboard, cardboard and plastic containers #1 - #7. The City plans to promote the expansion of this program and participation in both the curbside (backyard) recycling and green waste collection programs through a brochure including Chinese translations. Participation in the residential green waste collection program will also be promoted to gardeners through business license renewals.

City staff is working to implement an exclusive roll-off program that would include a provision requiring 50% diversion of construction and demolition debris. As a contingency, the City would provide building permit applicants with recycling facility information with a 50% diversion goal.

- 2. Why does your jurisdiction need the amount of time requested? Describe any relevant circumstances in the jurisdiction that contribute to the need for a Time Extension.**

The plan being developed by the City will require revisions to agreements and ordinances, as well as time to implement the new plan. The City plans to have the new or expanded programs in place by December 2002. The full effect of these plans will not be realized until the end of 2003. Therefore, the City is requesting a time extension until December 31, 2003.

3. Describe your jurisdiction's Good Faith Efforts to implement the programs in its SRRE.

The City's corrected diversion rate for 2000 is 29%. The City has had a backyard recycling collection program prior to 1990 and implemented a yard waste collection program in 1995. The City also recycles yard waste and inerts from its maintenance operations. Additional amounts of inert materials are diverted/salvaged at local landfills. Please refer to the PARIS printout for additional diversion programs operating in the City of San Marino.

4. Provide any additional relevant information that supports the request.

No additional information to be provided.

Section IIIB—ALTERNATIVE DIVERSION REQUIREMENT

Within this section, discuss your jurisdiction's progress in implementing diversion programs that were planned to achieve 50%. Provide any additional information that demonstrates "good faith effort." The CIWMB shall determine your jurisdiction's efforts in demonstrating "good faith effort" towards complying with AB 939. Note: The answers to each question should be comprehensive and provide specific details regarding the jurisdiction's situation.

Attach additional sheets if necessary—please reference each response to the appropriate cell number (e.g., IIIB-1.).

1. Why does your jurisdiction need and Alternative Diversion Requirement? Describe why SRRE selected programs did not achieve 50% diversion. Identify barriers to meeting the 50% goal and briefly indicate how they will be overcome.

2. Why is your jurisdiction requesting an Alternative Diversion Requirement in lieu of a Time Extension?

3. Describe your jurisdiction's Good Faith Efforts to implement the programs in its SRRE.

4. Describe any relevant circumstances in the jurisdiction that contribute to the need for an ADR. Provide any relevant information that supports the request.
